

**About You \***

My name is Denis, I am 18 years old, I am from Russia. Before coming to the cryptocurrency sphere, I was engaged in music for about 2 years, that is, I have the skills of a sound engineer and composer. I have been in the web3 field for about six months, so I have some experience in this "business". Also, I am studying solidity in parallel, and in the near future I will be able to work with smart contracts. As for my command of English, I can understand most of the speech and can maintain a conversation

**Why do you want to join the Ambassador Program? \***

I want to get experience as an ambassador. I also want to become part of the team in Web 3 and help in the development of the project. This is very interesting for me

**What skills can you bring to the Ambassador Program? \***

As I said, I have experience working with music, if I work in the field of content in a team, it will not be superfluous)

I also talked about the Solidity programming language, I learn it every day and after a short time I will be able to work with smart contracts, although perhaps at a basic level

Also, if it's important, I have experience working with Adobe Photoshop, Premiere Pro, Excel

What are 3 key action items you would focus on if you're onboarded as a Burrow Lead / Ambassador? \*

1. Promotion in social networks (such as Tik-Tok, Twitter, Youtube etc)
2. Content Creation
3. Coming up with ideas for marketing
4. Regularity

How would you go about addressing these 3 key action items? \*

Trend analysis and adjustment to them & Try to create original content

How would you measure success in the Ambassador Program with respect to your prospective Burrow? \*

I actually don't know, It will be seen
